Well over 100,000M lifetime

Truly one of the greatest cows to ever call Wall Street Dairy "home," Gerri left the herd recently at just under 10 years of age. Her massive frame, fantastic udder, and incredible will to milk made her a favorite here. Gerri was a 9th generation VG or EX and a 7th generation over 1000 fat in the "G" family from Mar-Bil Farm, tracing to **Darling-Farm Bell Ginny (VG-86 GMD-DOM)**.

We have two very impressive Seagull-Bay Supersire-ET daughters of Gerri in the herd: **Wall-St Supersire Gloria-ET** is fresh 60 days and is one of the best heifers we have ever had in the barn! Milking right at 90 lbs., she is one that catches the eye of visitors and looks to carry on her family's traditions of type and production. Her flushmate, **Wall-St Supersire Gellie-ET**, is due in early March to Salt and looks terrific as well.

We will keep you updated on these fantastic young cows as well as others that are furthering our quest for deep maternal lines, profitable production, and outstanding type.

Inquiries and visitors are always welcome!
