

From two of our first cow families

A sampling of the quality animals you will find on April 7th at the 64th Chautauqua-Cattaraugus Spring Production Sale

Lawrendale Dawson Mya (VG-86)

We are proud to offer two descendants from our first cow families on Wall Street. Mya's granddaughter, **The Street Advent Marjie**, sells on April 7th and is due in July to Bradnick. Her dam is a young Toystory heifer. We will also be consigning **The-Street Laurin Winona** out of Lawrendale Demand Winann (VG-85). She is also due in July to Atlantic. Both dams are from the original string of animals that we purchased from the family of the late Lawrence Hooker when Wall Street Dairy was first established.

At press time, we are still finalizing other consignments, but due to full barns, we will be sending several other animals to our annual club sale held in Cherry Creek.

Western New York has always been known for the quality of registered Holsteins that have been in demand nationally, and this year's sale will showcase a good sampling of these animals from a number of our fine herds.
