

Question: When is a Shark Attack a good thing?

Answer: When she happens to be one of your foundation cow families!

Susan Menendez

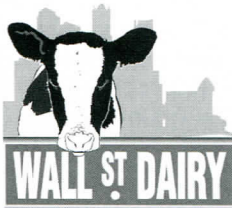

Spring-Fed Shark Attack 4E-93 born 10/17/1999

Shark Attack has proven to be exactly the kind of cow family that we were looking for upon which to build our new herd five years ago. She will be 14 this year, still milking, still breeding back and still possessing feet and legs and an udder that would put cattle a third her age to shame. She has also proven to be a prolific flush cow and we will continue to selectively flush her during 2013.

Daughters currently milking on Wall Street include **Spring-Fed ShottleArdene-ET**, who was just raised to **EX-91** by the classifier in January; **Spring-Fed Goldwyn Azula EX-90**; **Spring-Fed ShottleArlette-ET VG-88**; and **Spring-Fed Advent Aurelia-ET VG-87**. Both Azula and Aurelia are springing and still have points left in them, as does Arlette.

Two of our latest and promising 2-yr-old Shark Attack daughters, **Wall-St Atwood Atlanta-ET** and **Wall-St Goldwyn Athena-ET**, were also scored last month and went VG-86 and VG-85 respectively. Two Shark Attack granddaughters, **The-Street Goldwyn Ariana** (out of Ardene) and **The-Street Sanchez Ava** (out of Arlette) were scored VG-87 and VG-86 respectively. We also have some great granddaughters now in the herd by Planet and Braxton and they are beauties. A number of other farms in New York and nearby states have other Shark Attack offspring in their herds and we look forward to hearing from you.

We also have the good fortune to still own and work with Shark Attack's 12 year old maternal sister, **Spring-Fed Eland Allie 2E-90**, and she has also proven to be another superb Wall Street foundation cow that we will feature in a future ad.

Hard-working, high-class cows
